

St. Martin High School Shelter

11300 Yellow Jacket Blvd., Ocean Springs, MS

This project was funded through the Mississippi Emergency Management Agency (M.E.M.A.) following Hurricane Katrina. The educational facility includes the design of an engineered shelter to FEMA 361 standards in order to provide shelter and protect large numbers of people during any future storms. The decision to incorporate a shelter into the new high school was based upon the critical need of providing a safe environment for the students, staff, and families of the St. Martin community.

Project completed August 2012

Grant Award \$8,718,623
